

## KABUL INTERNATIONAL AIRPORT CUSTOMS OFFICE

(September 2007)

The implementation of the ASYCUDA++ in the Customs Office at the Kabul International Airport is scheduled for the end of this year.

In parallel with the improvement of the electrical and IT infrastructure (cabling of buildings, supply of IT and communications equipment etc), the following training courses have been organised by the ASYCUDA Team in the Afghan Customs Department (ACD) for the Customs officers working at the airport:

- Basic IT Training (20 August – 06 September 2007);
- ASYCUDA Functional Training (08 September – 09 October 2007).

The training courses are being organised in the IT Classroom of the ACD Training Centre in Kabul.
