

**ASYCUDA FULLY OPERATIONAL
IN
KAPSHTICE, ALBANIA
(at the border with Greece)**

ASYCUDA system was implemented in the Kapshice Customs Office by the Albanian Project Team, with the support of the UNCTAD in-country Customs and IT Advisers, in almost one month.

The implementation of the system included: installation/configuration of the IT equipment and software, installation / configuration of the ASYCUDA system, training of the Customs staff (3 shifts) and of the customs brokers' personnel, testing, parallel operation etc.

Kapshice Customs Office is the third site in Albania using ASYCUDA++ 1.17d on AIX 5.1 and ORACLE 9i.

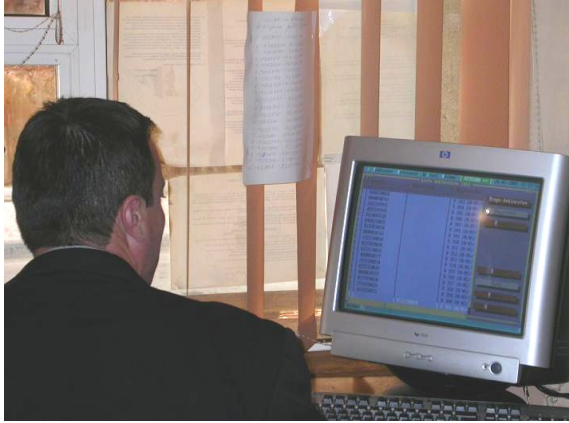

ASYCUDA is now fully operational in Kapshtice:

- 100% of the declarations are processed through ASYCUDA
- 100% DTI (Direct Trade Input)
- updates of reference data (tariff etc) are replicated from the Customs HQ
- all customs regimes are operational
- all customs declarations are consolidated in the Customs HQ database, in Tirana.
