

## ASYCUDA OPERATIONAL IN LEZHA CUSTOMS OFFICE, ALBANIA

Lezha Customs Office is a medium-size site, but is responsible for 10% of the annual customs revenue.

ASYCUDA system was implemented in Lezha Customs Office by the Albanian Customs Project Team, with the support of the UNCTAD Advisers. The implementation of the system included: installation/configuration of the IT equipment and software, and of the Albanian ASYCUDA system, the training of the Customs staff and of the customs brokers' personnel, testing, parallel operation etc.

ASYCUDA is now operational, i.e.

- 100% of declarations are processed through ASYCUDA and are automatically consolidated in the ASYCUDA central database in the Customs HQ.
- 100% DTI (Direct Trade Input)
- All customs regimes, including transit and warehousing, are operational.
- Updates of customs reference data (tariff etc) are automatically replicated from the Customs HQ into the system in Lezha
- Assignment of the customs officers for physical control is done automatically by ASYCUDA.
