

## ASYCUDA PILOT IN QAFE THANE, ALBANIA

Qafe Thane is the third ASYCUDA Pilot site in Albania, at the border with Macedonia.

The pilot was implemented by the Albanian Project Team, with the support of the UNCTAD in-country advisers, in almost one month: installation/ configuration of equipment and software, training of the Customs staff (3 shifts) and of the customs brokers' personnel, testing, parallel operation etc.

ASYCUDA is fully operational in Qafe Thane:

- 100% of the declarations are processed through ASYCUDA
- 100% DTI (Direct Trade Input)
- updates of reference data (tariff etc) are replicated from the Customs HQ in the system in Qafe Thane
- all customs regimes, including transit and warehousing, are operational
- all customs declarations are consolidated in the Customs HQ database.
