

## ASYCUDAWorld FUNCTIONAL TRAINING COURSE (April 2008)

Representatives of the business departments in the Albanian Customs Administration (ACA) have participated in the ASYCUDAWorld (AW) Functional training course, organised in the UNCTAD training premises in Geneva, at the beginning of the project.

During this training course, the practical aspects concerning the installation of ASYCUDAWorld in Albania as well as the implementation strategy have been extensively discussed with the ASYCUDA Programme functional and management teams.

The ACA representatives as well as the UNCTAD/ASYCUDA Programme have highly appreciated this training event.
